

- room of souls -

at the far end of the room
is a doorway

into a cavernous room
full of rounded river stones

a soft inner voice **is telling you**
to enter

to explore for as long as you feel you want
and to collect any stone you choose

then
to walk on
through a passageway
to the next room

this room has more stones
piled high

the voice is telling you
find a place to throw

or gently leave
the stone you carried with you

and to leave
by the door

at the far end of the room
